

*Is the Vatican part of the Babylon the Great or the Whore of Babylon?*

Some biblical interpretations suggest a connection between the Vatican or the Roman Catholic Church and the Whore of Babylon. Some commentators have associated the "Babylonian whore" described in Revelation 17 with the Roman Catholic system, citing similarities such as alleged spiritual fornication, wealth, and historical persecution of saints[1]. In the last days, a corrupted Vatican might be allied with the Antichrist and a resurgent Islam[2].
