

Who is TB Joshua?

TB Joshua is a Nigerian pastor at Joshua's Synagogue, Church of All Nations (SCOAN). He runs a Christian television station and has a YouTube channel. He tours the United States, the United Kingdom and South America.

Over one hundred people died when his multistory church collapsed in September 2014.¹

Kgosietsile Molefi Vanderbijlpark stated: "TB Joshua is running a cult that has made him a multimillionaire, and is making money out of people who are naive and lack (spiritual) wisdom."²

Khomotjo Muroa Potchefstroom said, "I think TB Joshua is just a charlatan doing white-collar crime in the name of God."³

While some of his congregants believe him to be a faith healer, others believe that he is a false miracle worker (2 Thess 2:7-12).

God certainly can heal today. He is the Great Physician (Lk. 5:12-15); But, some unscrupulous men pray on the hopes of individuals to get well. Caution is warranted (2 Pe 2:1).

The Lord said that we will know men by their fruits (Mt 7:20). Do they show fruits of the spirit (Ga 5:22–26) or do they manifest the deeds of the flesh (Ga 5:19–21)? Discernment is necessary (1 Jn 4:1–6).
